KEY STRENGTHS

- Over 15 years of professional experience in IT and web development.
- Proven Leadership and Management: Extensive experience in managing IT teams and infrastructures, coupled with a successful transition to Frontend development, demonstrating adaptability and strong leadership skills.
- Expertise in Web Development: Proficient in a wide array of technologies (HTML, CSS, JavaScript, ReactJS, Angular, etc.) with over 10 years of web development experience, allowing for the creation of high-quality, interactive web applications.
- Business Development and Entrepreneurship: Founded and operated a successful web development business, showcasing entrepreneurial spirit and the ability to build client relationships across various industries.
- Innovative Problem-Solving: Successfully resolved critical technical issues, preventing significant revenue loss and demonstrating a strong ability to troubleshoot under pressure.
- Process Automation and Efficiency Improvement: Developed and implemented automated systems that enhanced operational efficiency, reduced manual effort, and provided valuable insights for decision-making.
- Collaboration with High-Profile Clients: Experience working with well-known brands to deliver impactful digital solutions, highlighting strong communication skills and the ability to work in a collaborative environment.
- Commitment to Community and Learning: Actively involved in volunteer initiatives, reflecting a dedication to knowledge sharing and social engagement.

ACCOMPLISHMENTS

Frontend Developer, EyeKandy

Jun 2022 – Present (occasional contract work)

- I started my own web development business.
- I collaborated with leading global brands such as Intel, Dewar's and Bacardi to develop highly interactive landing pages for new product launches that served as gateways to their mobile apps. These web applications replicated the user experience of their promotional mobile counterparts.

Frontend Developer, eDocuments Ltd.

Jul 2022 – Jan 2024

- I built a bespoke platform for the construction industry that automates the entire project lifecycle, from handover to asset management, documentation management, and digital signing.

Frontend Developer, Rara Supply Ltd.

May 2021 – Jul 2022

- I contributed to building a bespoke platform for the construction industry that automates the entire project lifecycle, from handover to asset management, documentation management, and digital signing.

Frontend Developer, GPMD

Oct 2021 – Dec 2021

- I helped London jewellery business launch a successful Christmas campaign by fixing their website 2 days before launch and prevented major loss of revenue.

Technical Operations Manager , the Hurlingham Club	Full Time – London, UK
<ul style="list-style-type: none"> I upgraded WiFi systems throughout the club premises, increasing signal coverage and connection reliability by 30%. I migrated all servers/clients from Outlook Exchange to Office 365 I set up intricate messaging system for various departments in the business and their varying operational times, decreasing time needed to record and update messages each time a change was needed. I automated business processes by creating various SysVol scripts that handled users onboarding, registration logins and served as a golden thread for logging purposes. 	Aug 2019 – Feb 2021
IT Manager , BLDA Architects	Full Time – London, UK
<ul style="list-style-type: none"> I migrated all servers/clients from Outlook Exchange to Office 365. I upgraded all analogue desk phones to VoIP system. 	Jan 2018 – Jul 2019
Purchasing Assistant/IT co-ordinator , Vaughan Designs	Full Time – London, UK
<ul style="list-style-type: none"> I implemented an automated stocktaking system that reduced manual work, improved accuracy, and cut the process by over a day. The system provided clear visual insights for stakeholders, while minimising errors, and boosting operational efficiency, giving employees an extra day off. 	Oct 2015 – Dec 2017
Web designer and developer , Self employed	Full Time – Slovenia
<ul style="list-style-type: none"> I founded a local business with clients from all over country and even Canada. 	Jan 2012 – Oct 2015
IT Manager , GScomputers	Full Time – Slovenia
<ul style="list-style-type: none"> I co-founded a company that became a go-to computer reseller and service store in the region. 	Jan 2010 – Jan 2012
Regional store manager , Technomarket d.d.	Full Time – Slovenia
<ul style="list-style-type: none"> I progressed internally after my initial review due to my exemplary performance. 	Dec 2009 – Dec 2010
Head of IT department , Technomarket d.d.	Full Time – Slovenia
<ul style="list-style-type: none"> I was single-handedly responsible for store opening 2 weeks ahead of time by solving technical challenges, which allowed the company to make 700k EUR in revenue first week alone. 	Oct 2009 – Dec 2009

VOLUNTEERING

Frontend Developer , 8 Billion Minds	Remote
<ul style="list-style-type: none"> I help build a bespoke, free learning platform enabling individuals to teach and learn any subject through 1-to-1 video sessions. I organized the first Hackathon for volunteer developers, providing an opportunity to socialize, challenge themselves, and learn from one another, all while boosting productivity. In just 3 hours, we closed 26 tickets, and these Hackathons have since become a bi-annual event which I still attend. 	Since Oct 2021
